HVAC Service Tech (Puget Sound Area)

The ideal candidate is an analytical, detail oriented, highly organized and deadline driven. Must have a proven track record in the HVAC/R field. A solid understanding of HVAC/R principles, and capable of applying General Accepted HVAC/R Principles alongside Operational Industry Standards.

The scope of the position requires a high-functioning, results-oriented, self-directed professional with the ability to acclimate to fast paced, changing environments while performing a variety of complex tasks requiring initiative and a significant amount of judgment in solving problems.

We are a successful commercial HVAC contractor with a solid reputation in the greater Puget Sound area, who is surviving the recession through lean management and strategic positioning. We offer competitive wages, vacation/holiday, medical insurance, simple plan IRA with profit sharing, company vehicle after probation period, and place a high value on employee well-being. If you are looking to punch a timecard or work from written instructions, this environment is not for you. If you are looking to join a professional team in a fun and challenging setting where no two projects are the same, please read on!
